

### APPLICATIONS:

**FURNITURE/CABINETS:** These adhesives are specially formulated for bonding high pressure laminate to wood, particle board, or plywood for countertops or other large laminate surfaces. Typical substrates are plastic, laminate, MDF and melamine.

**MANUFACTURED HOUSING:** Bonds carpeting, insulation to side walls, bonds fabric to fabric and attaches headliner fabrics to wood, plastic, EPS, metal or reinforced fiberglass.

**HVAC:** These adhesives are excellent for installation of insulation of HVAC ducting systems, including supply, return and intake air.

*The aerosol and canister system reduces application cost by saving time and material.*
